

Pak Wheels — Services, Pricing, Eligibility, Policies & FAQs

1. Services and Sub-services with Pricing

Below is the full breakdown of every service Pak Wheels offers, split into sub-services, with pricing and a short explanation of what each sub-service actually includes. This section is the primary reference the AI Assistant should use whenever a visitor asks "how much does X cost" or "what do I get if I choose X."

1.1 Vehicle Inspection

An independent, professional inspection of a vehicle's condition, carried out by a trained inspection officer before a buyer commits to a purchase. This is one of the most requested services on the platform because it gives buyers confidence and gives sellers a stronger, more trustworthy listing.

- Basic Inspection PKR 2,000 Engine condition, body and paint, tyres, breaks a general health check.
- Full Inspection PKR 3,500 Everything in Basic, plus electrical systems check and a 60–90-minute road test.
- Urgent / Same-day Inspection +PKR 1,000 rush charge Priority scheduling so the inspection happens on the same day as booking.

Customers should note that an inspection reflects the vehicle's condition only at the time of the visit it is not a guarantee of future performance, and results are shared as a digital report within 24 hours.

1.2 Ad Listing

Posting a vehicle for sale on the platform. Pricing depends on two factors: the declared value of the vehicle, and whether the seller wants a normal listing or a featured (higher visibility) listing.

- Normal Ad (under PKR 4M) PKR 950 Standard listing, appears in regular search results after 24-48 hr approval.
- Normal Ad (PKR 4M - 8M) PKR 1,800 Standard listing for mid-value vehicles.
- Normal Ad (PKR 8M and above) PKR 2,650 Standard listing for high-value vehicles.
- Featured Ad (under PKR 4M) PKR 2,250 Top-of-search placement for 1-week, higher visibility than normal ads.
- Featured Ad (PKR 4M - 8M) PKR 2,950 Top-of-search placement for 1 week.
- Featured Ad (PKR 8M and above) PKR 3,950 Top-of-search placement for 1 week.

- Extended Featured 6 weeks PKR 2,150 Featured placement extended to 6 weeks instead of 1.
- Extended Featured 8 weeks PKR 3,250 Featured placement extended to 8 weeks instead of 1.

Featured ads typically get significantly more buyer calls than normal ads because of their prominent search placement, which is why many sellers upgrade after posting a normal ad that isn't getting enough attention.

1.3 Price Estimation

Helps sellers understand what a fair asking price would be for their vehicle, based on brand, model, year, mileage, condition, and city, compared against similar vehicles already on the platform.

- Instant Estimate Free Auto-generated fair value range based on submitted vehicle details.
- Detailed Valuation Report PKR 1,000 A manually reviewed valuation with a written report, useful for negotiation.

1.4 Document Verification

Confirms that a vehicle's paperwork is genuine and matches the details in the listing, which protects both the buyer from fraud and the seller from disputes later.

- Registration / Ownership Check PKR 800 Verifies the registration book and ownership documents match the listed vehicle.
- Auction Sheet Verification PKR 1,500 For imported Japanese vehicles retrieves the original auction report.

1.5 Dealer Package

Designed for registered dealerships that manage multiple vehicles at once and need a more organized, team-based way to work, rather than posting listings one by one as an individual seller would.

- Basic Dealer Account Quoted on request / month Dedicated dealer storefront, multiple team members can manage listings.
- Dealer + Custom Domain Quoted on request / month Everything in Basic, plus an independent custom domain (e.g. www.yourdealership.com).

1.6 Managed Selling — Sell It For Me

A fully managed selling service for customers who would rather not handle calls, negotiations, and paperwork themselves. Pak Wheels takes over the entire process on the seller's behalf.

- Inspection + Ad + Negotiation PKR 2,000 upfront Vehicle inspection, professional ad creation with photos, and answering buyer calls on your behalf.
- Success Commission 1% of final sale price Charged only after the vehicle is successfully sold no commission if it doesn't sell.

1.7 Support Services

Free services that support customers through parts of the buying/selling journey that Pak Wheels does not directly control, such as legal ownership transfer or handling disputes.

- Ownership Transfer Guidance Free General guidance on the ownership transfer process the legal transfer itself must be completed at the relevant excise office.
- Complaint Resolution Free Complaints are logged, investigated, and responded to, typically within 48 hours.

2. Eligibility Criteria

Not every service is open to every type of customer. This section explains exactly who qualifies for each service, and what a customer needs to have ready (documents, account status, verification) before Pak Wheels can proceed. The AI Assistant should check this section before confirming a customer can use a service.

2.1 General Account Requirement

Every paid service on the platform requires a registered account with a verified mobile number (confirmed via OTP). This applies to individuals and dealerships alike, and exists to prevent fraudulent listings and ensure buyers can reliably reach sellers.

2.2 Eligibility by Service

- Vehicle Inspection Any verified individual or dealer Requires: vehicle location, preferred date/time, valid contact number.
- Ad Listing (Normal / Featured) Any verified individual or dealer Requires: vehicle registration details, clear photos, asking price.
- Price Estimation Any verified individual or dealer Requires: brand, model, year, mileage, condition, city.
- Document Verification Any verified individual or dealer Requires: registration book, CNIC copy, transfer letter (if applicable).

- Sell It for Me Verified individual sellers Requires: original registration book and valid ownership documents.
- Dealer Package Registered, verified dealerships only Requires: dealership verification process must be completed first.

2.3 Why Eligibility Matters

These requirements exist to protect both buyers and sellers. Document checks reduce the risk of fraudulent or disputed ownership, verified accounts make it possible to trace bad actors, and the dealership-only restriction on the Dealer Package ensures that feature is used by businesses it was actually designed for.

3. Policy (Summary Box)

This section summarizes the key rules that govern how services are delivered, how disputes are handled, and what happens when something goes wrong. Each policy includes its purpose, the main rule, how long it takes to process, any restrictions, and where an issue escalates to if it can't be resolved automatically.
